Arnould, Designer and Creator since 1872

Since its creation, Arnould has placed innovation and design at the heart of its activities and has risen to the status of haute-couture craftsman and ambassador of French-style luxury.

In creating Art d'Arnould, the company is presenting a unique, exclusive series of switches blending design and technology and faithfully applying its exceptional know-how.

Art d'Arnould, a worthy descendant of Europa and Silencieux, fits naturally into the Arnould product offer to provide top-quality solutions for prestigious installations.

Since its creation in 2006, Art d'Arnould in its three decorative worlds – Mémoire, Epure and Fusion – has provided a wide selection of formats and finishes, with functions from classic control to the integration of high-tech commands, to offer an amazing choice of combinations.

With Art d'Arnould each and every individual can become the creator of a made-to-measure premium product perfectly suited to their requirements.

A new approach

Constantly striving to satisfy customer requirements, Arnould in 2011 offers a Collection of 250 items chosen from the original Art d'Arnould range.

and the benefits it offers you...*

art d'arnould | COLLECTION

To help you in your project management, Arnould has now created 250 catalogue numbers for products selected from the Art d'Arnould range.

This provides a more accessible and easily available collection, including the most popular worlds and finishes and the most commonly used features.

And because in today's home environment it is difficult to imagine an electrical installation project that does not incorporate home automation systems, Art d'Arnould has included eight 'My Home' automation functions in its collection.

art d'arnould | MADE-TO-MEASURE

By taking special care in the choice of materials, quality of finish and attention to detail, Arnould creates a unique, tailor-made product for each customer.

Art d'Arnould is timeless, to blend in perfectly with every trend of 21st-century style.

Three worlds are offered, so that Art d'Arnould allows every type of bold stylistic choice: Mémoire (classic forms), Epure (purity of lines), Fusion (blending of trends)

With different plate formats, a choice of finishes and a wide variety of functions, you can imagine a multitude of configurations to suit all your needs and desires.

Art d'Arnould is the combination of three criteria allowing you to create many different configurations

Worlds

To each his own style

mémoire

- Flat, thin plate
- Slight bevel around the edge of the plate
- Visible screw fastenings
- Crafted, indented collar
- Water-drop lever

épure

- Flat, thick plate
- No bevel
- Straight edges and clean angles
- No visible screw fastenings
- Plain collar
- Clean, plain cylindrical lever

fusion

- Flat, thick plate
- Wide bevel
- Clean angles
- No visible screw fastenings
- Stylised collar
- Sober cylindrical lever with bevelled tip

mémoire

Authenticity, heritage, craftsmanship

**The art of turning tradition
into lifestyle**

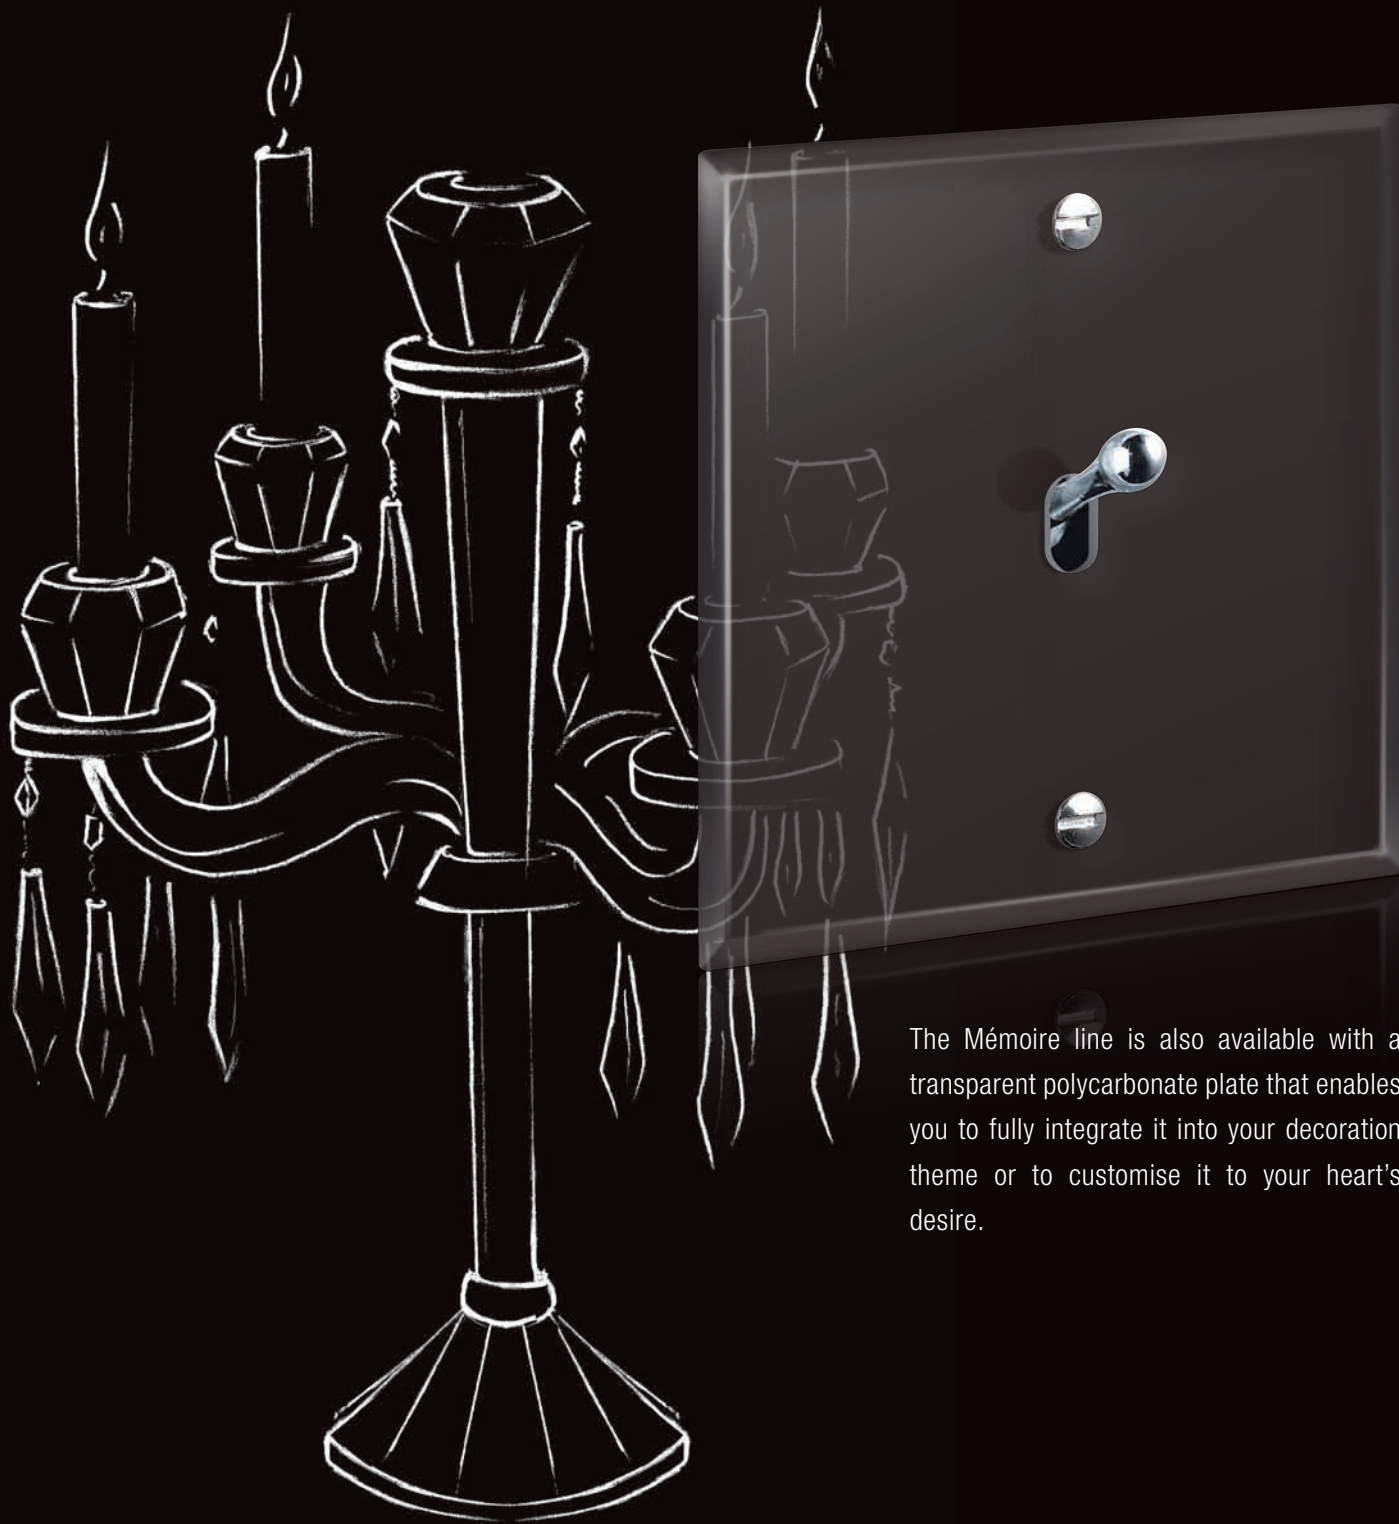

The Mémoire style is a reminder of the best of
tradition in terms of switches.

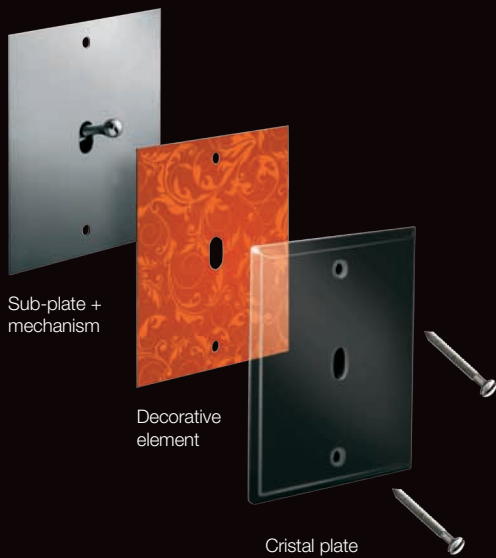

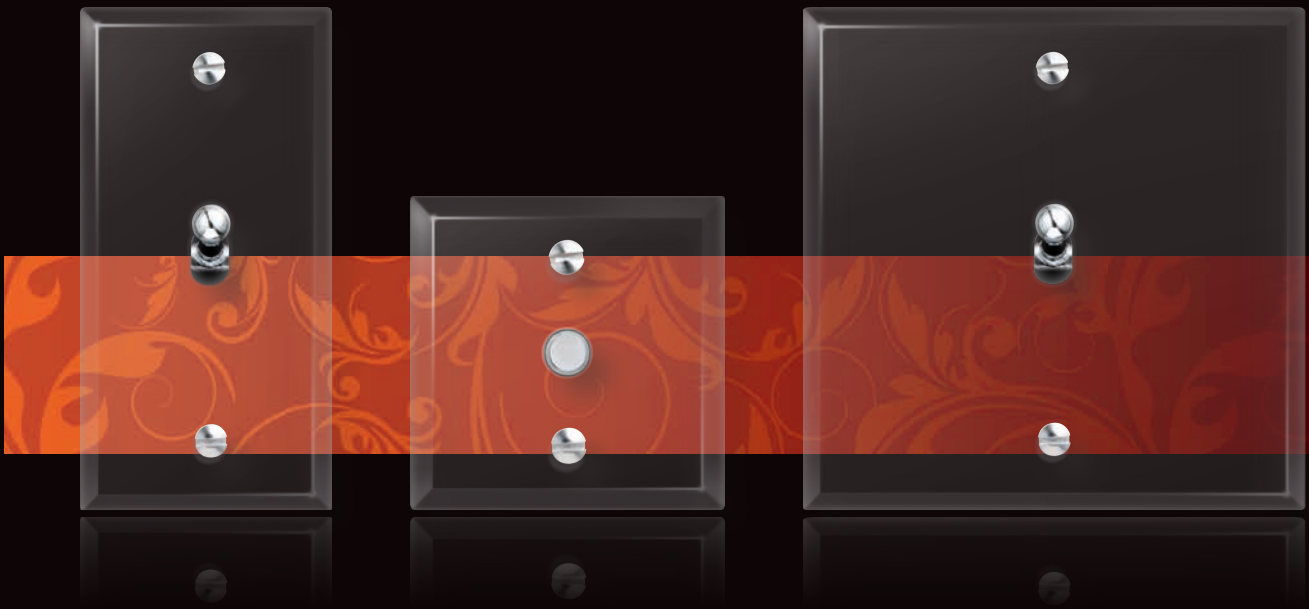

- Slight bevel
- Switches are available with water-drop lever, pushbutton or toggle
- Orange indicator light tube beneath button
- Crafted, indented collar
- Visible screw fastenings
- Flat, thin plate (2.8 mm)

mémoire cristal

Transparent elegance

The Mémoire line is also available with a transparent polycarbonate plate that enables you to fully integrate it into your decoration theme or to customise it to your heart's desire.

- The mechanism fixes onto a metal sub-plate.
- The decorative element fits beneath a transparent plate.

This moulded transparent plate allows for perfect integration with the metal sub-plate, thus fitting smoothly onto the wall.

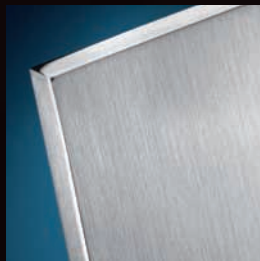

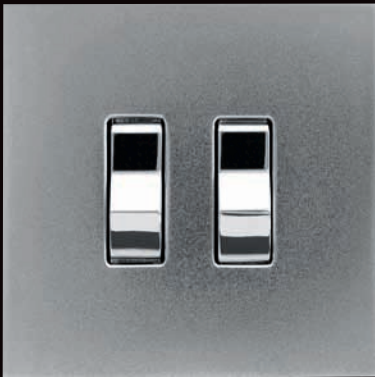

épure

Raw, minimalist, essential

The art of distilling pure essence

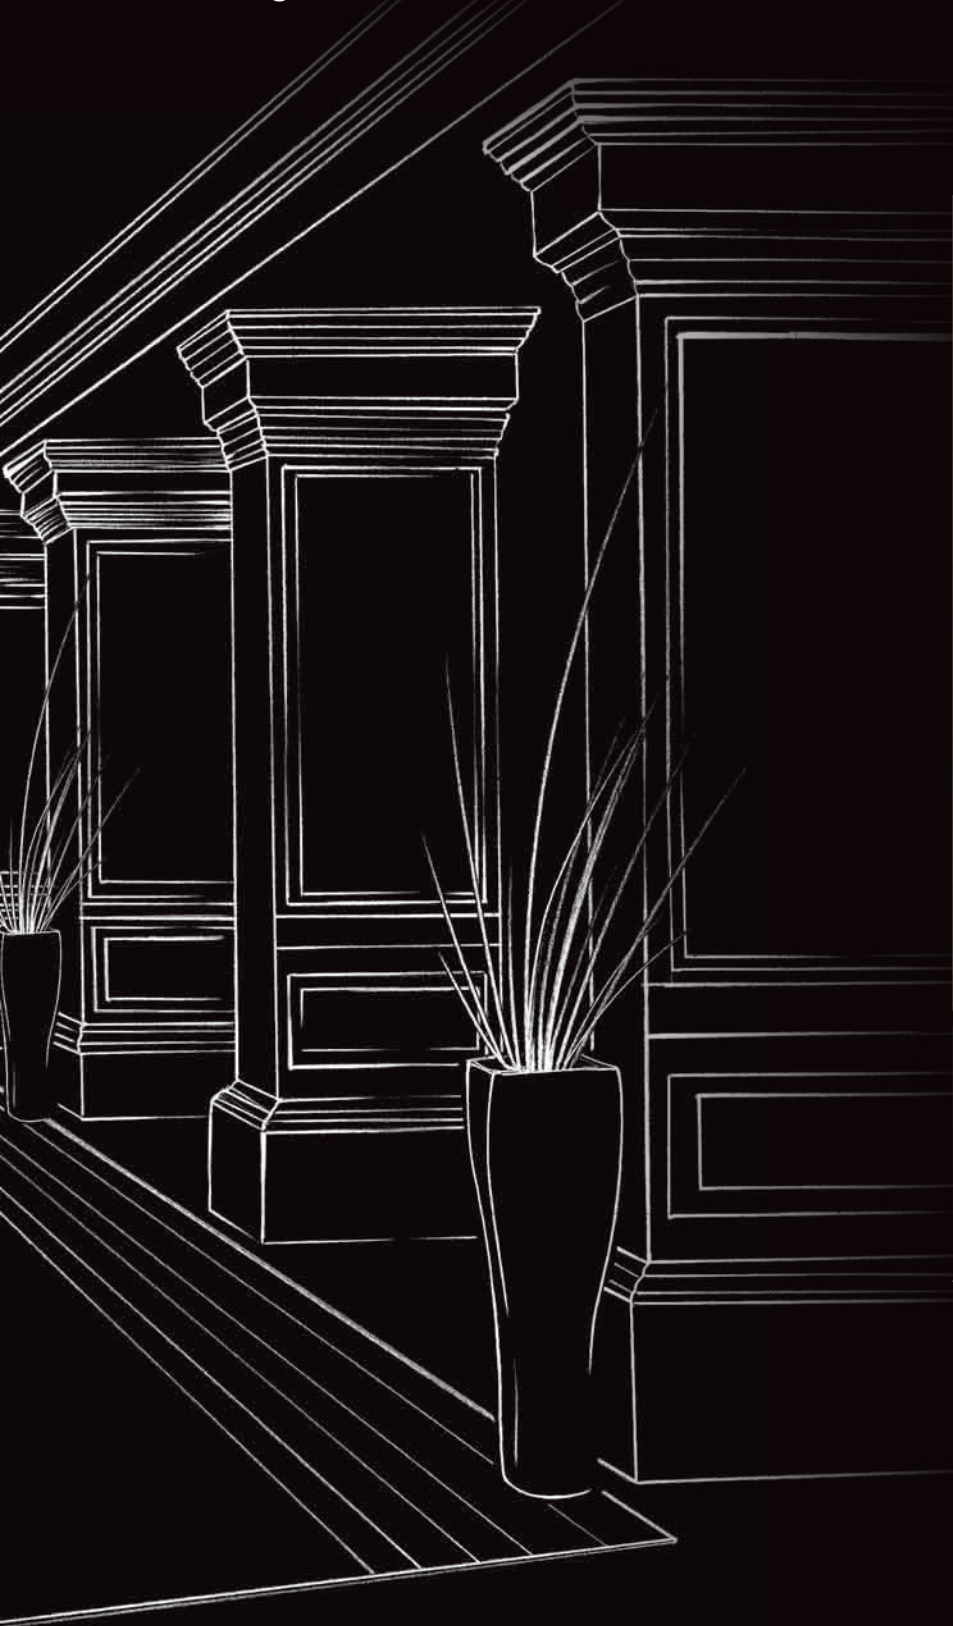

The Epure universe is for those who seek minimalist, contemporary aesthetics.

- Straight edges, clean angles and no bevels
- Switches are available with cylindrical lever, pushbutton or toggle
- Blue LED indicator
- Minimalist collar
- No visible screw fastenings
- Flat, thick plate (4,8 mm)

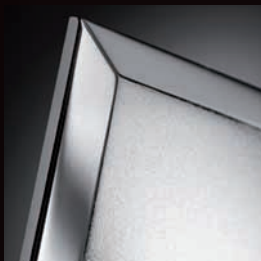

fusion

Daring, eclectic, neo-classical

Boldly blending styles and eras

For those who like both classic gilding and modern forms, the Fusion line is a meeting of tradition and contemporary style..

- Wide bevel
- Switches are available with cylindrical lever, pushbutton or toggle
- Blue LED indicator
- Minimalist collar
- Flat, thick plate (4.8 mm)

fusion

Sophisticated, eclectic finishes

2 bevels

The straight bevel version

This wide bevel is a new take on classic moulded frames.

The grooved bevel version

The classic look of the groove as an expression of style.

3 styles

Undecorated

A smooth version, with no added decorative elements.
Decor available in both plate forms.

Chased decor

Refined, precious motifs engraved on the plate surface.
2 types of chasing :

- Simple chasing
- Ornate chasing

Decors only available on groove bevel plates.

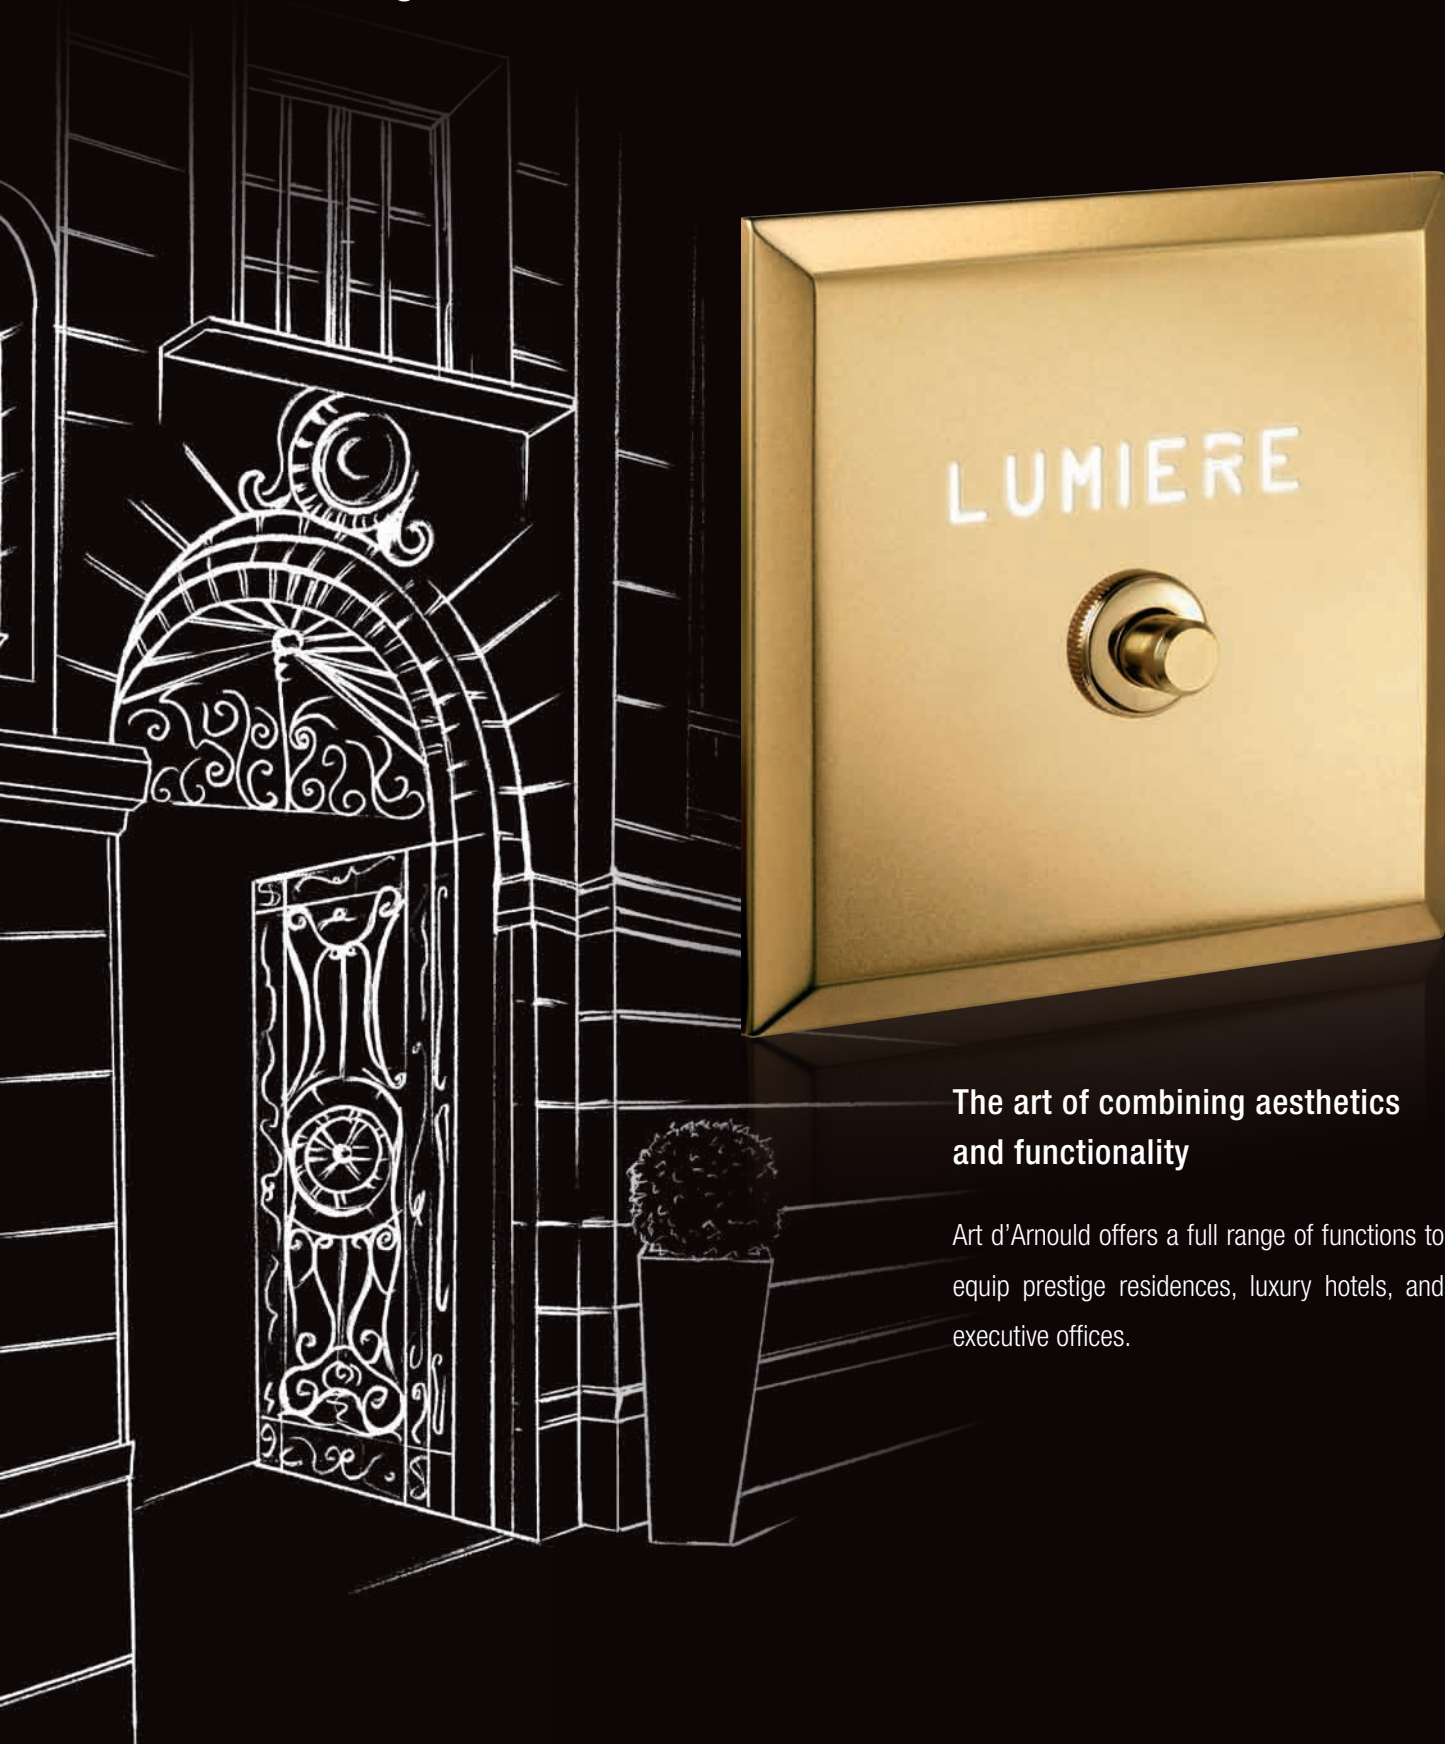

Braid decor

A new take on the «Style» decor of the Silencieux range with Louis XV braid patterns embossed on the plate surface.
Decor only available on groove bevel plates.
